Submission template – Dissemination of user-provided appliances:

1. What is the functionality that this appliance provides to the community?

2. Would you like the iDigBio site to store and distribute the appliance image, or to link to a downloadable image you provide?

3. What are the major bio-collection software tool(s) integrated in this appliance? (If applicable, please provide URLs to their respective Web pages)

4. What virtual machine technologies does the appliance run on?

5. Is any software within the appliance licensed in a manner that prevents open re-distribution? If so, please describe.
