

Drawer registration project

Naturalis
Biodiversity
Center

WHY?

- Estimated 17 million insects in collection
- Digistreet, digitises 800k – 900k insects
- Remaining 16 million not digitised
- Partily stored in an estimated 80.000 drawers

- By inventarizing / registrating the content of all insect drawers in 1 system, information is build up about the content, quantity of the collection, and the status of determination
- By adding the physical location of the drawers it will be possible to locate the insects / species and
- Provide management information

HOW?

DEDICATED TEAM

- 9 persons

SUPPORTED WITH CARTS, LAPTOPS & SCANNERS

WITH LABELS, MARKERS & MOLDS

BE.20428

DW.E.08.017.135.024

WITH WIFI, CABELS & REGISTRATION SYSTEM

Storage object - [RegistrationNr.: BE.37452]
